

## Bloomington Community Education COVID-19 Class/Camp Health Screening

---

This is a screening tool to be used for all camps and classes. This daily screening is to be conducted onsite, by the coach/instructor (or staff person when applicable) when students are arriving to their camp/class.

The screener will ask:

- Does your child have a mask with them today?
- Ask if the student has **ANY** of the following symptoms:
  - **TEMPERATURE/FEVER** of 100.4 F or above (Yes / No)
  - **COUGH** (Yes / No)
  - **SHORTNESS OF BREATH** (Yes / No)
  - **LOSS OF TASTE OR SMELL** (Yes / No)
- If **ALL OF THE ABOVE HEALTH QUESTIONS ARE NO**, then the student can attend their camp/class. **We are now requiring children 17 and under to wear masks for any class/camp/activities that take place indoors. We also require all adults 18 and over to wear masks both outdoors and indoors.** This includes coaches, staff, and parents. **Social distancing is to be maintained at all times** for all students, coaches/instructors, and parents. Remember, it is Bloomington Community Education's policy to have at least 1 parent onsite for any class where children 4 and under are participating.
- If **ANY OF THE ABOVE HEALTH QUESTIONS ARE YES**, the student **WILL NOT BE ALLOWED** to attend class/camp. Parents will be asked to take their child(ren) home.
- If the child becomes sick during class/camp, parents will be asked to take their child home. If the parent is not onsite, the coach/instructor will call the parent to pick their child up. The child should be separated from the rest of the class until a parent can pick the child up. If the camp/class has Bloomington Community Education staff onsite, the child will be placed in a sick room until the parent can pick the child up.
- Appropriate follow up will be done if a child becomes ill during camp/class as directed by the Minnesota Department of Health.
