Welcome to Bloomington School Bus Ridership Program

We are pleased to share this brochure on how to be a safe bus rider. Ensuring student safety at bus stops and while riding to and from school is our most important priority. It is also a partnership between parents, students, bus drivers and schools. So, we encourage parents and students to take a few minutes to review the enclosed safety steps and guidelines.

Our school bus drivers and transportation staff are focused on delivering safe and reliable transportation to the students of Bloomington every single day.

If the information you seek is not contained in this brochure, please visit our website at www.bloomingtonschools.info and click on Parents, then Transportation, or you may contact us at the phone numbers on page 3.

Best wishes for a fun and safe school year!

Frequently Asked Questions

★ *What time should we be at the bus stop?*

Five minutes before the bus is due to arrive.

Everyone's clock can be off a little bit. By being ready and at your stop five minutes early, you decrease the likelihood of missing the bus. It also allows for timing issues that can arise if you have a substitute driver.

★ *How do I request a change in my child's bus stop location?*

Call us. Drivers are not permitted to make changes to stops or routes.

★ *How will I get notified of changes to my child's bus schedule?*

Any notification of changes in your child's bus times will come in the form of a written notice or a phone call from the Transportation Center.

If the route time changes more than 5 minutes from the schedule, we may send out a written notice for the drivers to give to students over a few days, or district staff will call the homes of affected students through its parent notification system.

★ *I live in the enrollment area for one school, but my child is enrolled in another school through the district's inter-district transfer practice. Can I get transportation?*

Possibly. To increase efficiency, buses will not pick up or drop off outside the enrollment areas of the school. If your student is being transported to and from a daycare location within the enrollment area where bus service is provided, your student will be scheduled for a bus as long as we have current daycare information.

★ *Is my student eligible for transportation and what is the Pay-to-Ride Program?*

The School Board has established a walk-in distance from each school.

Students who live outside this walk-in distance (elementary schools = .5 miles; middle and high schools = 1.25 miles) are eligible for transportation to and from school. The Pay-to-Ride Program allows families to pay a fee for transportation for students who live within the walk-in distance but want their children to ride the bus. Transportation (bus pick-up/drop-off) is provided from an existing stop outside the walk-in area. To apply and learn more about the Pay-to-Ride Program, visit the Transportation website at www.bloomingtonschools.info

★ *My child is a special education student, is s/he eligible for transportation?*

In most cases, yes. Transportation is provided for special education students according to the child's Individual Education Plan (IEP). If you have a child with special needs requiring transportation different from the regular bus services, please work with your child's special education case manager or call our Transportation Center at 952-681-6300.
